Narrative of a survey for Carl Riley in Block 13 West, Section 24, Township 5 North, Range 26 East, Willamette Meridian, Morrow County, Oregon.

This survey was conducted to supplement and finish a survey started earlier by another surveyor.

After making the original ties to existing monuments I received an order to do a Title Survey for the Loan company and found that the barn and another building were encroaching on property to the West when previous survey information was used. I investigated the establishment of the North block corners of Block 13 West and concluded that they were established by questionable methods, so I reportioned the North line of Block 13 West as shown on the map resulting in the moving of the West line of Lot 4 approximately 2 feet to the West. In this survey I did not measure to the Iron Rod at West 4th Street but used distances of record. Also I measured from an Iron Rod at West 1st Street to an Iron Rod at the Northeast corner of Oregon Avenue and East 5th Street and found the distance checked within a foot of record.
