

NOTE
 Grid coordinates were used to subdivide the Section. The distances and bearings shown on the above map are (geodetic) true distances and (geodetic) true bearings. Conversion factors are as follows.
 grid north - 0°34' (geodetic) true north
 grid distance = (geodetic) true distance
 0.999 - 9496

LEGEND
 ● Denotes brass caps found
 ○ Denotes 2" iron pipe with brass cap set.

David H. Kimble
