

Vicinity Map  
1" = 2000'

area = 21.13 acres

- Legend**
- Denotes monument found
  - Denotes monument set
  - ( ) Denotes bearing, distances or point number from Val Toronto survey

- Notes:**
1. Bearings based on the line computed from the East 1/4, Section 9, to point no. 11-C, survey for Boardman Development Co., Inc., by Val Toronto, dated July, 1969, Morrow County Survey Records no. H-214.
  2. It appears that some of the tracts on Val Toronto's survey have been deeded using his information, calling for his point no. designations, and for 5/8 inch iron pins set at certain of these point numbers. Therefore I have attempted to reconstruct Val Toronto's survey based on monuments found and tied.
  3. This tract is composed of tracts designated as "B" and "D" on Val Toronto's survey.
  4. See Krumbein Engineering Co. survey no. 76-14C for Geo. Hansen, dated 2-9-76, for the East-West 1/2 of Sec. 9 and the center 1/4 corner.

REGISTERED PROFESSIONAL LAND SURVEYOR  
James H. Bowman
