

This line is referred to as the East line of Lot 6A in some documents and on the Tax Map but I can find no survey for it.

NARRATIVE:

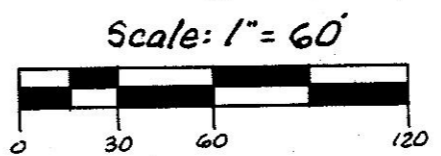

The purpose of this survey is to do a lot line adjustment on that tract of land described in a deed to Lorraine Jeter recorded on M-49086. Said deed is described with two parcels, the dividing line of which is the center line of vacated Idaho Avenue. That dividing line is to be moved North to a fence line as shown on this map.

I surveyed the North parcel in a 1992 survey for Kipling except for a boundary line adjustment the title company did on the East line to miss a well house. Tomkins did a survey on the South parcel in a 1996 survey for Biamonte. I just show the computed location of Tomkins' monuments on this survey.
