

## Corners in Sec 17 - T 15 R 28 E W. M.

Found East  $\frac{1}{4}$  Corner of Sec 17 - Marked with rock mound with Stone Mkd  $\frac{1}{4}$ . Ran South 40.20 Ch., found stone lying loose in wash with 4 notches on one edge and 3 notches on another. This stone has probably washed down hill. But I accept it and bury it in the wash and pile rocks around it. From this corner a mound of rocks lie 19 links North and 35 links West.

Found West  $\frac{1}{4}$  Corner Section 20 - Marked with Rock with faint  $\frac{1}{4}$  marked.

Ran North - 40 ch found rock with 3 marks on one edge and 3 marks on another lying 1 Chain East. This corner has probably been moved for the ground has been plowed
